Art Unit: 2622

1. The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a method and system for automatically correcting distortion of a front-projected display under observation by a camera, having the combinations as claimed, including the steps of observing a first image, projected from at least one projector, comprising at least one target distribution of light intensities, for each conglomeration of white pixels of a difference image, compute a bounding box comprising a corresponding conglomeration of pixels in a framebuffer information of the camera, compute a bounding box comprising a corresponding conglomeration of pixels in a framebuffer information of said projector, compute an initial homography matrix,  $H_{sub,temp}$ , mapping pixels of said projector's bounding box to those of the camera's bounding box, optimize said initial homography matrix, compute a central location,  $(C_{sub,x}, C_{sub,y})$ , of the camera's bounding box using said initial homography matrix, and using a plurality of correspondence values comprising said correspondence, compute a corrective transform to aid in the automatic correcting of the display, as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherrie Hsia whose telephone number is (571) 272-7347.
